

Photography

Professional photographers (those who are paid for their services), are requested to make a donation to the Museum. We are a private museum on private property that receives no government support.

West Bay Common School Children's Museum is a very popular location for photography backdrops and we are glad you are considering us to capture life's moments. Thank you for your support today.

With your donation, feel free to do a photo shoot anywhere on the property.

We use the honor system so ***please pay what you feel we are worth to you in accomplishing your photo shoot today. Drop it through the secure mail slot in the Barn Museum door.***
